Application For junior software developer

A Full Stack developer recently completed my Diploma in Software Development at Code Institute Ireland. Innovative, confident, and reliable frontend & backend web developer with an understanding of frontend & backend languages including HTML5, CSS3, JavaScript, React, jQuery, HTML5 | CSS3 | JavaScript | jQuery | Python | Flask | Django Also worked with SQL, MongoDB, good knowledge of AWS S3 storage service & identity and access management (IAM), Stripe (Online payment processing for internet businesses). Proficient using Git, GitHub, Gitpod, Cloud9 and Heroku and a full understanding of UX and UI and looking for ways to put my new knowledge and skills to use in a work environment. I am seeking for my first opportunity as full stack software developer, and I believe I would be great contribution to your team and company.

I am a fast learner & Excellent client communication and problem-solving skills paired with the aptitude and desire to learn new things, reach targets, and succeed. Ability to adapt to challenging circumstances, whilst remaining professional and understanding. Determined and goal-orientated whilst also being a keen learner, I'm great at working with teams to get job done. My adaptability allows me to work in many different environments.

I have impressive track record as a Team leader at my present employer Assistants for dig I Sverige (one of the leading private health & Social care organization, company has about 360 customers in Sweden), Work as Team leader my job description is to provide guidance, instruction, direction, and leadership to a group, keep all the team members work together in all situations and delivered a best result as a team. I am person who love to face new challenges.

Thank you for your time. I look forward to speaking with you about my knowledge, skills, and passion for all aspects of web development. You can reach me via Phone Number or Email Address.

Sincerely,

Jasvir Singh
